

Slurry Agitator Pumps

Super and Mega Contractor Models

Watch Video

The MAJOR range of Super and Mega Agitators are efficient slurry pumps designed with the larger farmer and contractor in mind.

They create enormous pressure to give phenomenal mixing power and slurry output.

The three point linkage design with quick hitch attachment allows the PTO to remain connected during transport and in and out of slurry pits. The diverter box design allows for efficient flows for both mixing and top filling, helping to keep fuel costs to a minimum.

The mixing head can be raised above the horizontal plane, to reach further up the tank. It can also be lowered to the tank floor, towards the pumps intake propeller.

It brings the full jet of slurry with it as it is adjusted up and down and through every position, to a radius of 100 degrees.

All adjustments are easily carried out, even while working at high pressure.

MODEL	MJ95-400-7S	MJ95-400-8S	MJ95-500-7M	MJ95-500-8M
Description	Super 7'	Super 8'	Mega 7'	Mega 8'
Drive	Gearbox	Gearbox	Gearbox	Gearbox
Working Depth	2.13m (7')	2.43m (8')	2.13m (7')	2.43m (8')
Power (HP)	100 HP	100 HP	130 HP	130 HP
PTO (rpm)	540	540	1000	1000
Output (l/min)	18,100	18,100	22,700	22,700
Weight	785kg	945kg	890kg	1120kg
